December 20, 2016

Algonquin Power Co.
354 Davis Road
Oakville, ON L6J 2X1

Attn: Ariel Bautista, Senior Project Manager

Dear Mr. Bautista:

Re: Review of Draft Operations Plan – Windlectric Project

Loyalist Township has made its position clear regarding the Operations Plan as initially submitted – the plan is lacking the requisite detail to meet the requirements of the Road Use Agreement. Algonquin Power Co. made a commitment to the Township at our November 21, 2016 meeting to provide a response on this matter. To date, the Township has not received a response from Algonquin Power Co.

We assume from your silence that Algonquin Power Co. is in agreement with the Township's position that the initial submission does not meet the requirements of the Road Use Agreement. We reiterate our position that the forty-five (45) day review period was not commenced by the submission of the incomplete preliminary Operations Plan.

We look forward to your forthcoming submission so that we can undertake our review within the mandated forty-five (45) day period.

Sincerely,

Robert Maddocks, MPA, RPP
Chief Administrative Officer
RM/dlo
